4500 E. ROAD

UINTAH COUNTY, UTAH

COUNTY ROAD NUMBER 4500 E.ROAD

State of Utah)
 :
County of Uintah)

Leonard E. Heeney, being first duly sworn, deposes and states as follows:

1. I am an adult competent to testify about the matters set forth below based upon my personal knowledge. I currently reside in Uintah County, Utah. I have lived in Uintah County about 52 years.

2. I have traveled and am familiar with a road in Uintah County known as the 4500 E. Road. I am also familiar with the land the road traverses. When I first used and observed the road in the late 1950s, it followed the same route as it does presently. Attached is a Uintah County map showing 4500 E. Road. To the best of my knowledge and based upon my use of and familiarity with this road and the land it traverses, the location and route of the road are correctly illustrated on the attached map.

3. I am informed that the County also identifies this road according to the road number listed above.

4. I have observed that the road has been open to the public for all to use, to come and go as they pleased, since at least as early as the late 1950s and continuing through 1976 to the present time. During this time period I have observed travel on the road by various means, including pickup trucks and equipment trucks. During this time period the road has been used daily.

5. During the time period from the late 1950s to the present, I have used the road myself for accessing oil locations in the area.

6. During the time period described in the previous paragraph, I observed vehicles using the road at various times for the uses described in the previous paragraph, plus oil and gas exploration or development and traveling in and through the area.

7. It is also the reputation in the community that this road has been open to the public for all to use, to come and go as they pleased, since at least as early as the 1950s and continuing through 1976 to the present, for the uses described in the previous paragraphs.

8. I observed the following evidence of maintenance/construction activities on the road prior to 1976: I observed oil company crews maintaining the road, and as a past employee of the oil company that maintained the road in the late 1950s, I knew that the oil company also intended to let the passage of vehicles on the road help to form and maintain it.

DATED this 17 day of October, 2006.
